

Core Values

We envision a world-class community of schools which educates its citizens to be literate, civic-minded, independent thinkers who are socially and ethically responsible and who productively contribute to our global community. Working in partnership with students, staff, families, and the community, these world-class schools promote core values. The core values are:

- Excellent and appropriate learning environments that develop students' intellectual, physical, social and emotional growth
- A rigorous and relevant curriculum and instruction with authentic assessment
- High expectations for academic excellence for all students
- Creativity and the appreciation of the aesthetic aspects of human existence
- Health, emotional and physical well-being
- Application of ethical principles
- Social responsibility toward the common good
- Respect and understanding of diversity
- Passion for learning
- Self-reliance and resiliency in an evolving and diverse world
- Student and parent voice, participation and ownership in each student's education
- Equality of access in order to fully nurture each student's potential
- Responsible allocation of resources to meet unequal needs
- Safe and orderly schools
