

## **Draw a Scientist (20 pts)**

For this assignment you need to think about a scientist at work. Think about the following details: What is the scientist wearing? What is the scientist doing? What tools is the scientist working with? After you get a mental picture, draw a picture of what you saw in your mind. You will not be judged on your artistic talent! Stick figures are fine – what is important is that you capture all the little details you imagined. You may label them with words if you like. Complete your drawing on a single sheet of white paper. If you do not have paper at home please get one from me before you leave class today.

Please put the school heading on the back of your drawing.

First and Last Name

Date Period

Assignment

You will be graded at follows:

Following directions (correct type of paper, school heading on back) – 5 pts

Appropriateness (does the content of you drawing violate school policies?) – 5 pts

Neatness and use of white space (Does picture fill the paper or is it a tiny drawing in corner of page? Is final picture a nice clean copy without crossed out errors?) – 10 pts
