

MY SCIENTIFIC SUMMER ASSIGNMENT

You are to write a paragraph about something that you did this summer. Pick out something that you enjoyed doing this summer and write a paragraph telling me about it. After you describe the activity spend some time thinking about how the activity relates to science and write another paragraph telling me how the activity involves science. Finally attach a picture to your paragraphs that shows the activity in action. The picture can be of you doing the activity, a picture obtained from a magazine or internet, or you own artistic representation of the activity.

You will be graded on the following:

Description of activity -	10 pts
Description of relationship to science -	10 pts
Picture showing activity -	10 pts
Neatness -	10 pts
<hr/>	
Total Points	40 pts
