

Highly Qualified Teachers and Staff Members

Dear MCCSC Parents,

The Monroe County Community School Corporation is the 14th largest school corporation in the state of Indiana. We are the home to more than 11,000 students and the nearly 2,000 employees that make their education possible every day.

As educators, we are proud of our employees and are confident in the abilities of our teaching staff. Our daily goal is to support our teachers and staff members in their professional growth, and our commitment to you, as parents, is to ensure that every teacher is *Highly Qualified* as defined by the Indiana Department of Education.

Information regarding the qualifications and training of your child's teacher is available to you in the school office. Please contact your local school or principal for more information.

Respectfully,

Peggy Chambers
Asst. Superintendent for Human Resources and Personnel
Monroe County Community School Corporation
