

iPad Take-Home: FAQ

How will this program differ from the current use of iPads in schools?

Not only will students be able to access apps, resources and materials at home by using the iPad, they will also be able to keep the same iPad throughout the school day. This allows for better iPad management in classrooms, as well as providing more personalized and individualized instruction and materials.

Are students required to bring the iPad to school every day?

Yes. Students are responsible for bringing a fully charged iPad to school every day.

Should students bring their iPad charger every day?

No. Chargers should remain at home.

How often will the students be using iPads during the school day?

The goal is for the iPads to be a staple in the classroom. Day-to-day student use will grow as students and teachers become more familiar with having it available in a student personalized environment.

Does the MCCSC provided case have to remain on the iPads?

Personal cases can be used instead of the MCCSC provide case. Students must turn their MCCSC provided case into the school's media specialist if they are not going to use it.

Will students be able to download applications (apps) on their own?

All apps will be chosen by teachers/school staff and loaded into the App Portal app located on all iPads. Students can load the available apps by selecting them from the portal and choosing to install them.

Will the App store be available on the student devices?

Students will not have access to the App store or iTunes.

Will students be able to access inappropriate sites/apps?

The iPad will be filtered and monitored just as the computers are. This filter will also be in place when the iPad is taken home. As always, no filter is perfect, and there is no replacement for parental supervision.

What can families do to manage students' use of the technology outside of school?

Establish guidelines around using media and technology at home. Try a [customizable contract](#) or parent tips that can be found at www.common sense media.com.

Will students be responsible for the care of their iPad?

Yes, please refer to the "Student Learning Device(s) & Agreement" technology guide in the MCCSC handbook, the link on the student's iPad, or the downloadable document on the eLearning website for specifics.

Will students be keeping the iPad over school breaks and the summer?

Students will be able to take iPads home over school breaks. They will not be keeping them over the summer break.

What happens if my child damages an iPad?

All damages will be logged, fixed internally (if possible), and returned to the student. A fee will be charged to the student through are invoicing process.

Can I insure my student's iPad?

Yes. [Worth Ave. Group](#) is one insurance group that is recommended for individual device insurance. (The current policy is a \$50 one-time payment for a year of coverage up to \$399 with a \$50 deductible.) This is just a recommended group, coverage can be sought elsewhere.

Worth Ave. Group

iPad Optional Insurance – Individual Policies

Worth Ave. Group’s iPad insurance policies provide replacement cost coverage and protect the device worldwide.

Worth Ave. Group iPad insurance policies provide replacement cost coverage for a full calendar year, paid with an annual premium. Each policy covers the iPad for accidental damage such as drops and spills as well as theft, fire, flood, natural disasters and lightning strikes.

Don’t let your priceless machine go unprotected. Our policy will pay to repair or replace your iPad for all covered losses. For theft, a police report is required to be turned into the school.

Coverage for your iPad Anywhere! Anytime! Worldwide!

We offer a \$50 deductible. The deductible amount is simply the amount of loss you agree to absorb in the event you file a claim on your iPad. The cost of your insurance policy depends on the amount of coverage you purchase and the deductible.

Go to <http://www.worthavegroup.com/product/ipad-insurance/> to select your options and purchase your policy.
