**NextLevel Jobs**  
INDIANA

In this course, you will learn the knowledge and skills required to install and configure systems to secure applications, networks, and devices; perform threat analysis, and respond with appropriate mitigation techniques; participate in risk mitigation activities; and operate with an awareness of applicable policies, laws, and regulations. Information Security Analysts perform these tasks to support the principles of confidentiality, integrity, and availability.

### Topics you will study:

- Threats, attacks, and vulnerabilities
- Identity and access management
- Technologies and tools
- Risk management
- Architecture and systems design
- Cryptography and PKI

<b>Refunds:</b>	No refunds after first day of class.
<b>Requirements:</b>	High school diploma or equivalent and Test of Adult Basic Education scores in reading and math at 8.0+.

## Why Certify?

- Learn new skills to get a job. Looking for work? Just starting out in the workforce? Certifications prove you know how to get the job done.
- Retain your job and salary. Make sure your expertise stands above the rest. Competence is usually retained during times of change, certification can lock you into tiered salary levels.
- Want to change jobs? Whether you are pigeonholed in a job you don't want, see limited advancement, or are looking for a career change, certifications can qualify you for new opportunities. Get your career moving in the right direction!
- Stand out in the résumé pile. Hiring managers can demand candidates with the strongest skill set. With a validated certification (or two!) on your résumé, hiring managers know more about you before they even call for an interview.
- IT is everywhere! Information Technology is needed most in companies across industries, and there are too few trained professionals to fill the jobs. Get certified and get ahead as IT continues to grow.

### Occupations for graduates of Information Security Analyst programs in Indiana: Selected Labor Market Information

Occupation	Hourly wages	Employment			
		2012	2022	Total growth	Total openings
Computer & Information Systems Manager	\$40.14	4,620	5,156	536	1,178
Computer Network Architect	\$29.44	1,970	2,236	266	576
Network & Computer Systems Administrator	\$24.22	6,616	7,395	779	1,819

- Total openings is the sum of growth and net replacements.
- Hourly wages is the 2012 Indiana median wage, which is midpoint between the lowest wage and the highest wage, for this occupation.
- For data questions, please contact [lmidata@dwd.in.gov](mailto:lmidata@dwd.in.gov).
