705 W. Coolidge Dr., Bloomington, IN 47403

NextLevel Jobs
INDIANA

This course will give you the skills needed in the construction industry in various crafts and for supervisory roles. It covers topics such as safety, construction math, hand tools, power tools, construction drawings, rigging, communication skills, employability skills, and material handling. You will learn the industry standards for performance in construction, which will enable you to carry out essential tasks and properly train and supervise others during your career in construction.

The class will feature visits by local employers and an end-of-course Hiring Fair by the Indiana Construction Roundtable.

Why Certify with NCCER?

Construction is an industry waiting for you to discover endless possibilities, career advancement, lucrative positions, and high demand. In fact, starting a career in this industry can be done with little-to-no debt and will provide you extensive knowledge and high skills.

Certification by the National Center for Construction Education & Research will demonstrate to employers that you have the skills and knowledge needed in a variety of career fields within the construction industry: from construction essentials, safety, and maintenance, all the way through energy sustainability, project management, and supervision.

Occupations for graduates of construction training programs in Indiana: Selected Labor Market Information

Occupation	Hourly wages	Employment			
		2012	2022	Total growth	Total openings
Construction Laborer	\$13.26	14,659	17,234	2,575	5,713
Front-Line Supervisor of Construction Trades and Extraction Workers	\$23.67	8,646	10,102	1,456	2,388
Construction Manager	\$26.96	4,447	5,325	848	1,533

- Total openings is the sum of growth and net replacements.
- Hourly wages is the 2012 Indiana median wage, which is midpoint between the lowest wage and the highest wage, for this occupation.
- For data questions, please contact lmidata@dwd.in.gov.
