

BUILDING “A” COMMUNITY OF LEARNERS

Cultural Norms

“We the teachers and staff at _____ hold these norms as the guidelines in which we will operate on a daily basis. We believe that dedicating ourselves to these norms will not only positively influence us as a faculty, but will make a difference in the lives of our students, and enhance the community.”

We will model the 5 Anchors of Success!

1. Respect 2. Kindness 3. Responsibility 4. Teamwork 5. Integrity

We believe that **EVERY INTERACTION COUNTS!**

We will **COMMUNICATE** effectively so that ALL stakeholders involved will have the same understanding.

We will make a genuine effort to engage in **PROFESSIONAL NETWORKING** to build a stronger rapport with one another and “Know Thy Neighbor”.

We will maintain a **POSITIVE PERSPECTIVE** that will in return reflect a **POSITIVE ATTITUDE**.

We will provide **STRUCTURE, STRUCTURE, STRUCTURE** through our daily operations and extracurricular programming.

We will **CONSISTENTLY** implement school-wide expectations.

We will **SUPPORT** one another & fill in the gap; for we are only as strong as our weakest link.

We will exhibit the highest level of **PROFESSIONALISM** in all that we do.

We will embrace the idea of **UNITY** to the fullest extent and make the effort to bridge any gaps that therefore exist amongst our faculty and staff.
