September 6, 2022

Dear Parents and Guardians of Monroe County Community School Corporation,

The Monroe County Public Health Clinic is working with your child’s school to give flu vaccinations and Pfizer COVID-19 vaccinations to students ages 5 and older. A schedule of when the MCPHC will be in your student’s school is attached. If you wish for your student to receive either vaccine while at school, please complete the following steps:

1. Completely fill out the attached consent and health questionnaire. Don’t forget to indicate any allergies your student may have. Consent must be signed by the parent or guardian of the student. **There is one consent for the influenza vaccination and one consent for the COVID vaccination.**
2. Please include your insurance information if applicable. If your child does not have insurance or has Medicaid, there is not a charge for the vaccine. If your child has insurance that covers vaccines at any level, we must bill the insurance company. We can bill most major companies. These companies are listed on the enclosed ‘accepted payers’ list.
3. Check the date of your school’s clinic and **return all completed paperwork to your school by the paperwork deadline date.**
4. Please indicate if you would like your child to have the following vaccines. Please check both if applicable. First and second vaccinations, as well as boosters of the COVID Vaccine will be available.

\_\_\_\_\_ Influenza vaccination (all ages)     \_\_\_\_\_ Pfizer COVID vaccination (5-11 years)

\_\_\_\_\_ Pfizer COVID Vaccination (12+)

Thank you for taking steps to protect the health of your student and the community. If you have any questions, please call the Monroe County Public Health Clinic at 812.353.3244.

Sincerely,

Beth Carpenter RN  
Monroe County Public Health Clinic
