

MCCSC COVID-19 DATA

Following CDC guidance, MCCSC understands that “students benefit from in-person learning and safely returning to in-person instruction for the fall of 2021 is a priority.” MCCSC also realizes that each student has a unique set of circumstances related to personal and family health, and the optimal time to move to online learning may vary for each student. MCCSC encourages families to review COVID-19 positive case data in order to empower families to make individual decisions that are best for them.

MCCSC notifies close contacts of a positive case as well as families with children who are in a classroom/class(es) with a student or staff member who tests positive for COVID-19. The positive student or staff member is required to isolate for 10 days from the onset of symptoms or a positive COVID-19 test. A fully vaccinated close contact will not be required to quarantine if symptom free. An unvaccinated close contact will be required to quarantine for 10 days, eligible to return with “enhanced precautions” on day 11 (if symptom free).

MCCSC process for reviewing data.

- 1. Collect data.**
 - The number of positive COVID-19 cases in a classroom /school building
 - The number of close contacts to the positive individual in a classroom, school or bus.
 - The number of known close contacts outside of school with positive tests.
 - The number of individuals within households of a student/staff member that have a positive case.
 - The number of households of student/staff members with a positive case.
- 2. Notify Families who have a child that is in close contact or in a classroom or bus with a person who tests positive for COVID-19.**
- 3. MCCSC officials will contact the Monroe County Department of Health when:**
 - there is more than one positive case in a class or bus, or
 - data such as the number of cases or number of contacts are of concern.
- 4. Upload the number of positive COVID-19 case by school to the Corporation website.**
- 5. Contact the Monroe County Health Department to review situations where more the one positive case exists in a classroom. During this review, the above information will be provided to the Monroe County Health Department to allow for a recommendation regarding the potential closure of a classroom or school.**

MONROE COUNTY COMMUNITY SCHOOL CORPORATION

MCCSC STUDENT & STAFF COVID-19 POSITIVE CASES NOVEMBER 22 - DECEMBER 01, 2021

Consistent with the Indiana State Department of Health, positive cases are reported as “in building” if present in a school building 48-hours prior to the onset of symptoms or a positive test. MCCSC nurses contact trace online and in-person individuals to determine close contacts for quarantine.
