

The following metrics will be taken into consideration when consulting with the local health department to determine the overall MCCSC Learning Status.

[Indiana COVID-19 Data Report](#)

(a. Percent Positivity, 7-day rolling average/All Tests
and b. Positive Cases per day, 7-day rolling average)

To find Monroe County's data, hover over the map, click on Monroe County, then scroll up to see the data for the county.

[Harvard Global Health](#)

(c. Positive Case per day, per 100,000-person population 7-day rolling average.)

To find Monroe County's data, scroll down to find Indiana, on the Indiana Map click on Monroe County.

[Monroe County Health Department](#)

(d. Test Turnaround - average number of days from test to notification for MCCSC students and employees,
and e. MCCSC Contact Tracing - average number of days from positive test to notification of close contacts)

In consultation with the Monroe County Health Department.

*Due to individual circumstance, there may be schools or programs that vary from the MCCSC Learning Status.

**MCCSC is working closely with the Monroe County Health Department and Indiana University. If an isolated cluster is found these positive cases will be taken into consideration.
