How to Find your Student's Bus Card on Skyward Family Access?

If you have any questions about your student's bus route, Skyward Family Access is the first place to look. Routes can change, and Skyward will have the most up-to-date information about transportation.

Step 1: Login to [Skyward Family Access](#). Use the forgot password link if you have forgotten your login credentials. A reset link and further instructions will be sent to the e-mail address on file with the school for your student(s). If you do not have an e-mail address on file, please contact your school to get added into our system.

Step 2: Upon login, select the tab that says "Busing".

Step 3: On the Busing Tab, you should see a table with all relevant information displayed for your student(s).

Busing
