

Monroe County Childhood Conditions Virtual Summit (MC3) Tuesday, October 27, 2020 10am – 3pm *FREE* [Register Now!](#)

For the past four years, Youth Services Bureau of Monroe County and Building a Thriving Compassionate Community (BTCC) have engaged approximately 200 community members annually for the Monroe County Childhood Conditions Summit (MC3). Our original theme of *what surrounds us shapes us* was grounded in the understanding that children are shaped by the relationships they have, the neighborhoods they live in, the places they learn and play, and the community organizations that serve them.

The 2020 MC3 Summit will revisit our original theme and explore conditions surrounding equity, trauma and advocacy in the context of the COVID-19 pandemic. As we continue to build thriving compassionate communities, we know we must widen our focus from individual youth and families to the conditions that frame our lives.

Thanks to the generosity of our sponsors (Youth Services Bureau, Monroe County Public Library, Anthem, and Community Justice and Mediation Center), we are excited to share that this year's summit will be free of charge. We will offer virtual sessions the day of the summit and links to pre-recorded sessions that may be viewed at your own convenience.
