Walking Students to Class
Beginning Monday, August 27th we ask that students walk to class on their own. If you would like to walk your child to the front door that is perfectly fine, but we prefer that students walk on their own to class as to gain independence and not interrupt the flow of their classroom routines. Thank you in advance for your cooperation.

Car Rider Dismissal
If your child is a car rider then please pull into the front of the building (Hotel side) and proceed around the circle drive to pick up your child. If you must use the back parking lot (North Kinser Pike entrance) then please try not to park along the curb as there are buses that must pull through that zone.

Please continue reading as there is important information on Page 2.
Safety Week

Arlington Families,

Next week, September 10 - 14, 2018, all students will be participating in our third annual Arlington Heights Safety Week. We will do one safety drill each day of the week with assistance from Bloomington Fire Department, Bloomington Police Department and MCCSC’s Officer_______.

The drills included will be: Fire, Tornado, Earthquake, Lockdown, and Evacuation

We do these drills to be prepared in the event of a true emergency. We look forward to learning from our community helpers.

Thank you for your support!

School Wide Procedures and Expectations

Arlington Heights is a Positive Behavior Intervention and Support (PBIS) School which means that we have established procedures and expectations to help maintain a safe and positive learning environment. We focus on three main expectations for our students: Be Safe, Be Kind, Be Responsible. In addition, we have procedures in place in our classrooms and all areas of the school so that students know the behavior we expect throughout the school.

We spend the first several weeks of school practicing procedures. When students are taught and practice procedures, they understand the expectations for behavior at school. Recently, all students received instruction on school wide procedures for the cafeteria, hallway, restrooms, car rider, and bus rider areas. For example, students were taught the procedures for the hallway which include:

- Be Safe – walk and face forward
- Be Kind – hands and feet to yourself - stay in line
- Be Responsible – hands at your sides – go directly to your destination

We will continue to teach, practice, and reinforces our procedures so that all students can have a safe and positive learning environment.
