**1.G.2 – Geometry**  
*Essential Learning: Shapes & Attributes*

Level 4: I can go beyond what is expected.

Level 3: I can recognize basic shapes and put shapes together to make new shapes.

Level 2: I can recognize basic shapes.

Level 1: I can recognize basic shapes and put shapes together to make new shapes with help from my teacher.

**1.G.3 – Geometry**  
*Essential Learning: Fractions*

Level 4: I can go above and beyond what is expected.

Level 3: I can divide a whole shape into equal parts. (halves, fourths and quarters)

Level 2: I can recognize when a shape has been divided into equal parts. (halves, fourths and quarters)

Level 1: I can recognize and divide a shape into equal parts with help from my teacher.

**1.MD.2 – Measurement and Data**  
*Essential Learning: Standard and Non-Standard Units*

Level 4: I can go above and beyond what is expected.

Level 3: I can measure an object on my own using standard and non-standard units.

Level 2: I can sometimes measure an object on my own using standard and non-standard units.

Level 1: I can measure an object on my own using standard and non-standard units with help from my teacher.
1.MD.3 – Measurement and Data
Essential Learning: Time

Level 4:  I can go above and beyond what is expected.

Level 3:  I can tell and write time in hours and half hours using analog and digital clocks.

Level 2:  I can sometimes tell and write time in hours and half hours using analog and digital clocks.

Level 1:  I can tell and write time in hours and half hours using analog and digital clocks with help from my teacher.

1.MD.4 – Measurement and Data
Essential Learning: Data and Graphing

Level 4:  I can go above and beyond what is expected.

Level 3:  I can organize, represent, and interpret data with up to three categories.

Level 2:  I can sometimes organize, represent, and interpret data with up to three categories.

Level 1:  I can organize, represent, and interpret data with up to three categories with help from my teacher.

1.NBT.2 – Number and Operations in Base Ten
Essential Learning: Place Value

Level 4:  I can go above and beyond what is expected.

Level 3:  I can determine the number of tens and ones in a two-digit number and write it correctly.

Level 2:  I can count groups of tens and ones and write the number correctly when given a picture or manipulatives.

Level 1:  I can count groups of tens and ones and write the number correctly when given a picture or manipulatives with help from my teacher.
1.NBT.4 – Number and Operations in Base Ten
Essential Learning: Place Value in Addition & Subtraction
Level 4: I can go above and beyond what is expected.
Level 3: I can solve and equation within 100 and explain the strategy I used.
Level 2: I can solve an equation within 100 when given a specific strategy.
Level 1: I can solve an equation within 100 when given a specific strategy and help from my teacher.

1.NBT.1 – Number and Operations in Base Ten
Essential Learning: Extend the Counting Series
Level 4: I can go above and beyond what is expected.
Level 3: I can count from any point to 120 and write the numerals correctly.
Level 2: I can count any number of objects up to 120 and write the numeral correctly.
Level 1: I can count any number of objects up to 120 and write the numeral correctly with help from my teacher.

1.OA.1 – Operations and Algebraic Thinking
Essential Learning: Addition & Subtraction Word Problems
Level 4: I can go above and beyond what is expected.
Level 3: I can solve an addition or subtraction word problem using the correct symbols.
Level 2: I can solve an addition or subtraction word problem when pictures and symbols are given.
Level 1: I can solve addition or subtraction words problems with help from my teacher.
1.OA.3 – Operations and Algebraic Thinking
*Essential Learning: Properties of Operations*

Level 4: I can go above and beyond what is expected.

Level 3: I can recognize fact families and use them to solve addition and subtraction equations.

Level 2: I can recognize fact families and use them to solve addition equations when addends are given. (turn-around facts)

Level 1: I can solve addition or subtraction equations with help from my teacher.

1.OA.6 – Operations and Algebraic Thinking
*Essential Learning: Add & Subtract within 20*

Level 4: I can go above and beyond what is expected.

Level 3: I can choose the appropriate strategy or tool on my own for solving addition and subtraction equations.

Level 2: I can solve addition and subtraction equations when given a strategy or tool.

Level 1: I can solve addition or subtraction equations with help from my teacher.

1.OA.8 – Operations and Algebraic Thinking
*Essential Learning: Missing Numbers in Addition & Subtraction*

Level 4: I can go above and beyond what is expected.

Level 3: I can determine the missing number in an addition or subtraction equation.

Level 2: I can sometimes determine the missing number in an addition or subtraction equation.

Level 1: I can determine the missing number in an equation with help from my teacher.
